## **INDEPENDENT AUDITOR'S REPORT**

To the Board of Commissioners  
Terrebonne Parish Veterans' Memorial District  
Terrebonne Parish Consolidated Government  
Houma, Louisiana

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and each major fund of Terrebonne Parish Veterans' Memorial District (the District), a component unit of the Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial

statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Terrebonne Parish Veterans' Memorial District, as of December 31, 2012, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 7 and the budgetary comparison schedule on page 27 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated May 17, 2013, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing

To the Board of Commissioners  
Terrebonne Parish Veterans' Memorial District  
Terrebonne Parish Consolidated Government

of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**Terrebonne Parish Veterans' Memorial District**  
**Terrebonne Parish Consolidated Government**  
Management's Discussion and Analysis  
December 31, 2012

As management of the Terrebonne Parish Veterans' Memorial District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended December 31, 2012.

**NEW ACCOUNTING PRONOUNCEMENT IMPLEMENTED**

The District implemented Governmental Accounting Standards Board (GASB) Statement 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* in fiscal year 2012. GASB 63 provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of net position and related disclosures. The reader will note a change in terminology from "net assets" to "net position" and a new category within the Statement of Net Position called "Deferred Inflows of Resources" which includes deferred ad valorem taxes revenue and deferred state revenue sharing.

**FINANCIAL HIGHLIGHTS**

- Terrebonne Parish Veterans' Memorial District's assets exceeded its liabilities and deferred inflows of resources by \$421,919 (net position) as of December 31, 2012.
- Revenues exceeded expenses by \$230,798 during the year.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis serves as an introduction to the District's financial statements. The Terrebonne Parish Veterans' Memorial District's financial statements consist of the following components:

**Statement of Net Position.** This statement combines and consolidates the governmental fund's current financial resources (short-term spendable resources) with capital assets and long-term obligations, regardless if they are currently available or not.

**Statement of Activities.** Consistent with the full accrual basis method of accounting, this statement accounts for the entity-wide current year revenues and expenses regardless of when cash is received or paid.

**Balance Sheet – Governmental Funds.** This statement presents the District's assets, liabilities, and fund balances for its general fund and capital projects fund.

**Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds.** Consistent with the modified accrual basis method of accounting, this statement accounts for current year revenues when received except when they are measurable and available. Expenditures are accounted for in the period that goods and services are used in the government's activities. In addition, capital asset purchases are expensed and not recorded as

an asset. The statement also exhibits the relationship of revenues and expenditures with the change in fund balance.

**Notes to Financial Statements.** The accompanying notes provide additional information essential to a full understanding of the data provided in the financial statements.

**BASIC FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of an entity's financial position. In the case of the District, assets exceeded liabilities and deferred inflows of resources by \$421,919 at the close of the most recent year, December 31, 2012. The largest portion of the District's total assets is cash and investments (54%) and capital assets, net of accumulated depreciation (28%).

Notes to Financial Statements  
As of and for the Year Ended December 31, 2012

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Terrebonne Parish Veterans' Memorial District (the District) complies with accounting principles generally accepted in the United States of America (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The more significant of the government's accounting policies are described below.

**A. REPORTING ENTITY**

The District is a component unit of Terrebonne Parish Consolidated Government (the Parish) and as such, these financial statements will be included in the comprehensive annual financial report (CAFR) of the Parish for the year ended December 31, 2012. GASB Statement No. 14, *The Financial Reporting Entity*, and GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units – an amendment of GASB Statement No. 14* established the criterion for determining which component units should be considered part of the District for financial reporting purposes. The basic criteria are as follows:

1. Legal status of the potential component unit including the right to incur its own debt, levy its own taxes and charges, expropriate property in its own name, sue and be sued, and the right to buy, sell and lease property in its own name.
2. Whether the District appoints a majority of the board members of the potential component unit.
3. Fiscal interdependency between the District and the potential component unit.
4. Imposition of will by the District on the component unit.
5. Financial benefit/burden relationship between the District and the potential component unit.

The District has reviewed all of its activities and determined that there are no potential component units which should be included in its financial statements.

**B. BASIS OF PRESENTATION**

The District's basic financial statements consist of the government-wide statements on all activities of the District and the governmental fund financial statements.

Government-wide Financial Statements:

The government-wide financial statements include the Statement of Net Position and the Statement of Activities for all activities of the District. The government-wide presentation focuses primarily on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange revenues.

**Terrebonne Parish Veterans' Memorial District  
Terrebonne Parish Consolidated Government**

Notes to Financial Statements  
As of and for the Year Ended December 31, 2012

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)**

Fund Financial Statements:

The fund financial statements are very similar to the traditional government fund statements as presented by governments prior to the issuance of Statement No. 34. Emphasis is on the major funds in governmental categories. The daily accounts and operations of the District continue to be organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of the fund is accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, equity, revenues and expenditures. Government resources are allocated to and accounted for in the fund based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following are the governmental funds of the District:

**General Fund** – The General Fund is the general operating fund of the District. It is used to account for all financial resources except those that are required to be accounted for in another fund. The General Fund is always a major fund.

**Debt Service Fund** – The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs and is not reported as a major fund.

**Capital Projects Fund** – The Capital Projects Fund is used to account for financial resources to be used for the acquisition, construction and renovation of major capital facilities and is reported as a major fund.

**C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING**

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Government-wide Financial Statements:

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year for which they are levied.

**Terrebonne Parish Veterans' Memorial District**  
**Terrebonne Parish Consolidated Government**

Notes to Financial Statements  
As of and for the Year Ended December 31, 2012

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)**

Fund Financial Statements:

All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Governmental funds are maintained on the modified accrual basis of accounting.

Governmental fund revenues resulting from exchange transactions are recognized in the fiscal year in which the exchange takes place and meets the government's availability criteria (susceptible to accrual). Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Ad valorem taxes and the related state revenue sharing (intergovernmental revenue) are recognized as revenue in the period for which levied, thus the 2012 property taxes which are being levied to finance the 2013 budget will be recognized as revenue in 2013. The 2012 tax levy is recorded as unearned revenue (deferred inflows of resources) in the District's 2012 financial statements. Charges for services are recorded when earned since they are measurable and available. Miscellaneous revenues are recorded as revenues when received in cash by the District because they are generally not measurable until actually received.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. An exception to this general rule is principal and interest on general long-term debt which is recognized when due. Allocations of cost such as depreciation are not recognized in the governmental funds.

**D. USE OF ESTIMATES**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of American requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**E. OPERATING BUDGETARY DATA**

As required by the Louisiana Revised Statutes 39:1303, the District Board of Commissioners (the Board) adopted a budget for the District's General Fund and five year capital outlay. Prior to adoption of the budget, approval of the Terrebonne Parish Council must be first obtained (R.S. 33:9357).

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)**

Any amendment involving the transfer of monies from one function to another or increases in expenditures must be approved by the District Board with prior approval by the Terrebonne Parish Council. All budgeted amounts which are not expended, or obligated through contracts, lapse at year end.

The General Fund budget is adopted on a basis materially consistent with accounting principles generally accepted in the United States of America.

The General Fund budget presentation is included in the required supplemental information.

**F. ACCOUNTS RECEIVABLE**

The financial statements for the District contain no allowance for uncollectible accounts. Uncollectible amounts due for ad valorem taxes and other receivables are recognized as bad debts at the time information becomes available which would indicate the uncollectibility of the particular receivable. These amounts are not considered to be material in relation to the financial position or operations of the funds.

**G. DEFERRED BOND ISSUANCE COSTS**

The District has recorded deferred bond issuance costs in its government-wide financial statements. Deferred bond issuance costs are amortized over the term of the related debt using the effective interest method.

**H. CAPITAL ASSETS**

The accounting treatment over property, plant and equipment (capital assets) depends on whether the assets are reported in the government-wide or fund financial statements.

Government-wide Financial Statements:

In the government-wide financial statements, fixed assets are accounted for as capital assets. Capital assets purchases, or acquired, with an original cost of \$1,000 or more are valued at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation.

Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

**Terrebonne Parish Consolidated Government**

Notes to Financial Statements  
As of and for the Year Ended December 31, 2012

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)**

Depreciation of all exhaustible capital assets is recorded as an expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	20 – 40 years
Improvements other than building	5 – 25 years
Office furniture, fixtures and equipment	5 years
Museum artifacts	5 years
Machinery and equipment	5 – 20 years

Fund Financial Statements:

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

**I. LONG-TERM DEBT**

The accounting treatment of long-term debt depends on whether the debt is reported in the government-wide or fund financial statements.

Government-wide Financial Statements:

All long debt to be repaid from governmental resources are reported as liabilities in the government-wide statements. The long-term debt consists of limited tax bonds.

Fund Financial Statements:

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payments of principal and interest reported as expenditures.

**J. VACATION AND SICK LEAVE**

The District has no employees. There is no accumulated unpaid vacation and sick leave at December 31, 2012.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)**

**K. FUND EQUITY**

Government-wide Statements:

Equity is classified as net position and displayed in three components:

Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets, if any.

- 1) Restricted – Consists of components of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributions or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- 2) Unrestricted – All other components of net position that do not meet the definition of “restricted” or “net investment in capital assets.”

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Financial Statements:

Governmental fund equity is classified as fund balance. Fund balance is further classified as follows:

- 1) Non-spendable – amounts that cannot be spent either because they are in non-spendable form or because they are legally contractually required to maintain intact.
- 2) Restricted – amounts that can be spent only for specific purposes because of constitutional provisions, charter requirements or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- 3) Committed – amounts that can be used only for specific purposes determined by a formal action of the District's Board. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the District's Board with

prior approval by the Terrebonne Parish Council (Terrebonne Parish Consolidated Government).

- 4) Unassigned – all other spendable amounts.

For the classification of governmental fund balances, the District considers an expenditure to be made from the most restrictive first when more than one classification is available. The District's fund balance was classified as non-spendable, restricted and unassigned as of December 31, 2012.

**L. RECENTLY ISSUED AND ADOPTED ACCOUNTING PRONOUNCEMENT**

In June 2011, the Governmental Accounting Standards Board (GASB) issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. GASB 63 provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of net position and related disclosures. The statement of net assets is renamed the statement of net position and includes four components: assets, deferred outflows of resources, liabilities and deferred inflows of resources. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2011.

**NOTE 2 – DEPOSITS AND INVESTMENTS**

All District monies are held in a cash and investment pool maintained by the Parish and available for use by all funds. The District's portion of this pool is included on the Statement of Net Position and Governmental Fund Balance Sheet as "cash and/or investments".

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States or any other federally insured investment, certificates of deposit of any bank domiciled or having a branch office in the State of Louisiana, guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations.

State law requires deposits (cash and certificates of deposit) of all political subdivisions to be fully collateralized at all times. Acceptable collateralization includes FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or trust company for the account of the political subdivision.

**NOTE 2 – DEPOSITS AND INVESTMENTS (Cont.)**

The year-end balances of deposit held by the Parish were as follows:

Cash on Hand	\$ 31,550
Reported amount of deposits	-
Reported amount of investments	1,302,534
Total	<u>\$ 1,334,084</u>
Cash and Cash Equivalents	\$ 31,550
Investments	1,302,534
Total	<u>\$ 1,334,084</u>

As mentioned previously, all District funds are held and invested by the Parish who has proper pledging to cover funds for the District. At December 31, 2012, cash and certificates of deposits were adequately collateralized in accordance with state law by securities held by unaffiliated banks for the account of the District and the Parish, respectively. The Governmental Accounting Standards Board (GASB), which promulgates the standards for accounting and financial reporting for state and local governments, considers these securities subject to custodial credit risk. Even though the deposits are considered subject to custodial credit risk under the provisions of GASB Statement No. 40, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the depositor that the fiscal agent has failed to pay deposited funds upon demand.

Investments:

State statutes authorize the District to invest in the U.S. Treasury, agencies and instrumentalities; commercial paper rated AAA 1, 2, or 3; repurchase agreements and the Louisiana Asset Management Pool.

As a means of limiting its exposure to fair value losses arising from interest rates, the District's investment policy limits investments to securities maturing less than six months from the date of purchase unless the investment is matched to a specific cash flow.

Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's investment policy requires the application of the prudent-person rule. The policy states, *investments shall be made with the judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the*

*probable safety of their capital as well as the probable income to be derived. Primary emphasis shall be placed upon the safety of such funds in an effort to minimize risk while earning maximum returns.* The District's investment policy limits investments to those discussed earlier in this note. LAMP has a Standard & Poor's Rating of AAAm.

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments in external investment pools are not exposed to custodial credit risk because of their natural diversification and the diversification required by Securities and Exchange Commission.

LAMP, a local government investment pool, is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana, which was formed by an initiative of the State Treasurer in 1993. While LAMP is not required to be a registered investment company under the Investment Company Act of 1940, its investment policies are similar to those established by Rule 2a7, which governs registered money market funds. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA-R.S. 33:2955. Accordingly, LAMP investments are restricted to securities issued, guaranteed or backed by the U.S. Treasury, the U.S. Government or one of its agencies, enterprises or instrumentalities, as well as repurchase agreements collateralized by those securities.

The dollar-weighted average portfolio maturity of LAMP assets is restricted to not more than 60 days, and consists of no securities with maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the value of the pool shares. Investments in LAMP as of December 31, 2012 amounted to \$1,302,534 and are classified on the Statement of Net Position as "Investments". In accordance with GASB Codification Section I50.126, the investment in LAMP as of December 31, 2012 is not recognized in the three risk categories provided by GASB Codification I50.125 because the investment is in the pool of funds and, therefore, not evidenced by securities that exist in physical or book entry form.

**NOTE 3 – PROPERTY TAXES**

Property taxes are levied each November 1 on the assessed value listed as of the prior January 1 for all real property, merchandise and movable property located in the Parish. Assessed values are established by the Terrebonne Parish Assessor's Office and the State Tax Commission at percentages of actual value as specified by Louisiana law. A reevaluation of all property is required to be completed no less than every four years.

The last reevaluation was completed for the list of January 1, 2012. Taxes are due and payable December 31 with interest being charged on payments after January 1. Taxes can be paid through the tax sale date, which is the last Wednesday in June. Properties for which the taxes have not been paid are sold for the amount of the taxes. The tax rate for the year ended December 31, 2012 was \$.50 per \$1,000 of assessed valuation on property parish-wide for the purpose of improving, maintaining, acquiring, constructing, furnishing and operating a regional military museum, and the Veterans Memorial Park on Louisiana Highway 311, in the Parish of Terrebonne, State of Louisiana. As indicated in Note 1C, taxes levied November 1, 2012 are for budgeted expenditures in 2013 and will be recognized as revenues in 2013.

**SPECIAL REPORTS OF CERTIFIED PUBLIC ACCOUNTANTS**

**INDEPENDENT AUDITOR'S REPORT ON  
INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND  
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Commissioners  
Terrebonne Parish Veterans' Memorial District  
Terrebonne Parish Consolidated Government  
Houma, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of American and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the government activities and each major fund of Terrebonne Parish Veterans' Memorial District (the District), a component unit of the Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated May 17, 2013.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might by material weaknesses or significant deficiencies. Given these limitations, during our audit we did

To the Board of Commissioners  
Terrebonne Parish Veterans' Memorial District  
Terrebonne Parish Consolidated Government  
Houma, Louisiana

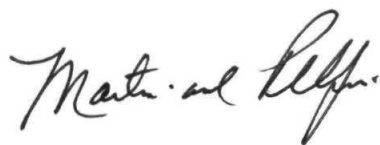

not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

This purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. This report is intended for the information and use of management, Board of Directors, and the Louisiana Legislative Auditor for the State of Louisiana and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
